With a dark brown eyes--- and the red, red hair.

I told her that--- I love her true.

With a girl like me--- at the crossroads bar

I like smokey lights--- and a lonesome song

And I won't do right--- if I can do you wrong

You want the moon above--- and I'm the darkest star

And you won't find love--- at the crossroads bar

Come on my friend--- take my advice

Keep your love at home--- with your loving wife

You're better off--- than you think you are

And you won't find love--- at the crossroads bar
