

# It Takes One To Know One

G                      G7                      C  
Little girl you stand out in the crowd  
D7    G  
You're laughing and talking much too loud  
G7                      C  
But I see a little tear peaking through  
D7    G  
It takes one to know one and I know you

## Chorus:

G7    C  
It takes one to know one and I know you  
D7    G  
The little tear through your smiles I see through  
G7    C  
You've been hurt and your frightened you're so blue  
D7    G  
It takes one to know one and I know you

G7    C  
Little girl please take hold of my hand  
D7    G  
Just go right on and cry I'll understand  
G7    C  
Pay no mind if I start crying too  
D7    G  
It takes one to know one and I know you

## Chorus

D7    G  
It takes one to know one and I know you
