

Leavin'

Key of B

Jack Tottle

 B E
Now I was a stranger in love and in town
F# B
You set me up then you put me down
 E
You had your way with me every time
F# B
But leaving would take that load off my mind

Chorus:

B E
You wanted love and you wanted more
F# B
People and places like never before
 E
You ran around like you thought I was blind
F# B
leaving would take that load off my mind

Now you had me fooled from the day that we met
Sweet lies you told me I'll never forget
But you can't keep lying and love and you'll find
Cause leaving will take that load off my mind

(Chorus)

Now don't you be waiting for my knock on your door
That kind of loving I don't need no more
You had your day until it came time
For leaving will take that load off my mind

(Chorus)
